

Superior Graphite will be exhibiting at the *Grainger Show*
on February 15-19, 2015 in Orlando, FL

→Come visit us at Booth 459!

Grainger, the leading broad line supplier of maintenance, repair and operating (MRO) products, welcomes more than 15,000 attendees to its annual show in Orlando, FL. The event brings together customers, suppliers and Grainger team members nationwide to discuss emerging trends in areas such as inventory management, e-commerce and safety.

Superior Graphite Is Pleased to Feature the Following SLIP Plate® Products:

SLIP Plate® Aerosols

SLIP Plate® product line offers a variety of aerosol graphite lubricants to fit your needs. SLIP Plate® Aerosol is the original dry film graphite lubricant designed to reduce sliding friction between surfaces. Chain and Cable is designed to penetrate deep within chain linkages and pins and provide lubrication due to long-lasting graphite particles. Penetrant Plus is a 2-in-1 graphite based product with premium penetrating oil that breaks up corrosion to release rusty mechanical joints and threads for proper operation.

SLIP Plate® No.1, Heavy Duty

This product has been used in the market to solve sliding friction problems since 1975. SLIP Plate® No.1 is formulated with a very high concentration of friction fighting graphite and a proprietary binder system to provide a long-lasting dry lubrication for the heaviest loads. *SLIPPERY* when DRY!

Tube-O-Lube®

Tube-O-Lube® is a unique, natural form of graphite powder which has been milled to a designed particle distribution to allow for proper lubrication in areas where friction and wear is an issue. Great for door locks!
